# IT STARTS WITH A DREAM

The FROST venture is a reminder that there is still room for new innovative companies in this field, companies that listen to their clients and their needs in a changing world and are willing to adapt and carve out a specific niche in our increasingly over-designed world.

This third edition is just as exciting as the first two editions. We always aim to remain a work in progress, stay innovative and create new exciting products and fresh ideas for interior design accessories.

Frost values are quality products, innovation and new design with a different point of view, while remaining timeless and minimalistic. We want to stay ahead with modern, innovative takes on bathroom accessories, wardrobe products, hardware and shelf systems.

Our longstanding business relationships make all our efforts worthwhile. I would like to thank you for believing in Frost Denmark, whether you are a partner dealer, an architect or private client. We appreciate your ongoing support and will strive to bring you more engaging and eye-catching design products in the years to come.

There is cause for celebration with this third edition. We have moved into our brand new headquarters and warehouse facilities which paves the way for a new & exciting future. We have a 500 square-metre showroom facility and can welcome guests who wish to view our complete product ranges.

Thank you for the trust and confidence you continue to show our company year after year.

With compliments

Hans Jørgen Frost

# FROST

D E N M A R K

Established on June 1st 2002 by Hans Jørgen Frost, our story began with a vision to create interior design accessories and architectural hardware where Scandinavian design walks hand in hand with function.

## WE DO OUR UTMOST

to inspire architects, interior designers, and anyone else who is looking for designs to create complete solutions within bathroom, kitchen and wardrobe interior design.

## INDEPENDENT DESIGNERS

At FROST, we believe independent designers adds to our product development. They inspire and encourage us to think ahead, leading us into new product areas and new product development and designs.

Successfully and due to this collaboration we now offer several design series that appeal to a broader range of the consumer markets.

We are working with the experienced Danish design company Bønnelycke mdd, and the design duo Busk+Hertzog. Due to their design experience, we are able to bring changes within our field. At FROST we want to create the future.

## PERFECT INTERIOR DESIGN SOLUTION

Having started from scratch in 2002, we now offer a full range of interior designs. We offer collections in many different materials and shapes but with a single design philosophy: Keep it simple. It is better to surprise than to disappoint!!

## THE VISION

In the early days, a vision to become a market leader and a trendsetting company within interior design accessories, was too big a dream too soon, we thought. It never even crossed our minds, that we would join the inner circle of established design companies so quickly. We did not expect to earn accolades or exhibit in design centres, alongside the very best market-leading design, furniture and hardware companies.

We now dare to dream big, and our vision is to become the market leader. We work tirelessly every single day, consistently providing the best designs and products to compliment your lifestyle and enhance the feel-good factor in your lives.

## THE MISSION

We seek to make FROST the preferred brand and product range, not only for residential, office and hotel projects, but also public and private building projects. At FROST, we seek to be ahead of our time. FROST's vision is to be the most innovative and trendsetting brand design house. Our work is anchored in the Scandinavian design philosophy, in which the worlds best designers love to work.

## THE BRAND VALUES

We aim to create high-quality design. We are innovative and trustworthy. FROST is the brand that never promises too much but always gives you more than you expected.

## IT TAKES 10 YEARS TO BECOME AN OVERNIGHT SUCCESS

Why did our business grow so quickly?  
Can it continue to grow?

The answer is YES, primarily because we will continue to produce our own designs and products, and we will nurse our identity and image. Our brand is highly respected across the globe, because everyone at FROST and all our partners worldwide, work tirelessly to satisfy our customers' needs.

## OUR GREATEST ACHIEVEMENT

We have transformed our role in the market. We were once an alternative supplier and have now become the main supplier. This is our greatest achievement. Customers travel from all parts of the world to visit us. They have confidence in us. They can rely on us to supply the very best products and services.

Bathroom, kitchen & wardrobe accessories. Consistent details such as the shadow edge between the mounting surface, and the product compliments the discreet and complete series.

All elements are interpretations of the meeting between the stringent form, and the cylindrical form - this is quite apparent on the hooks for the system.

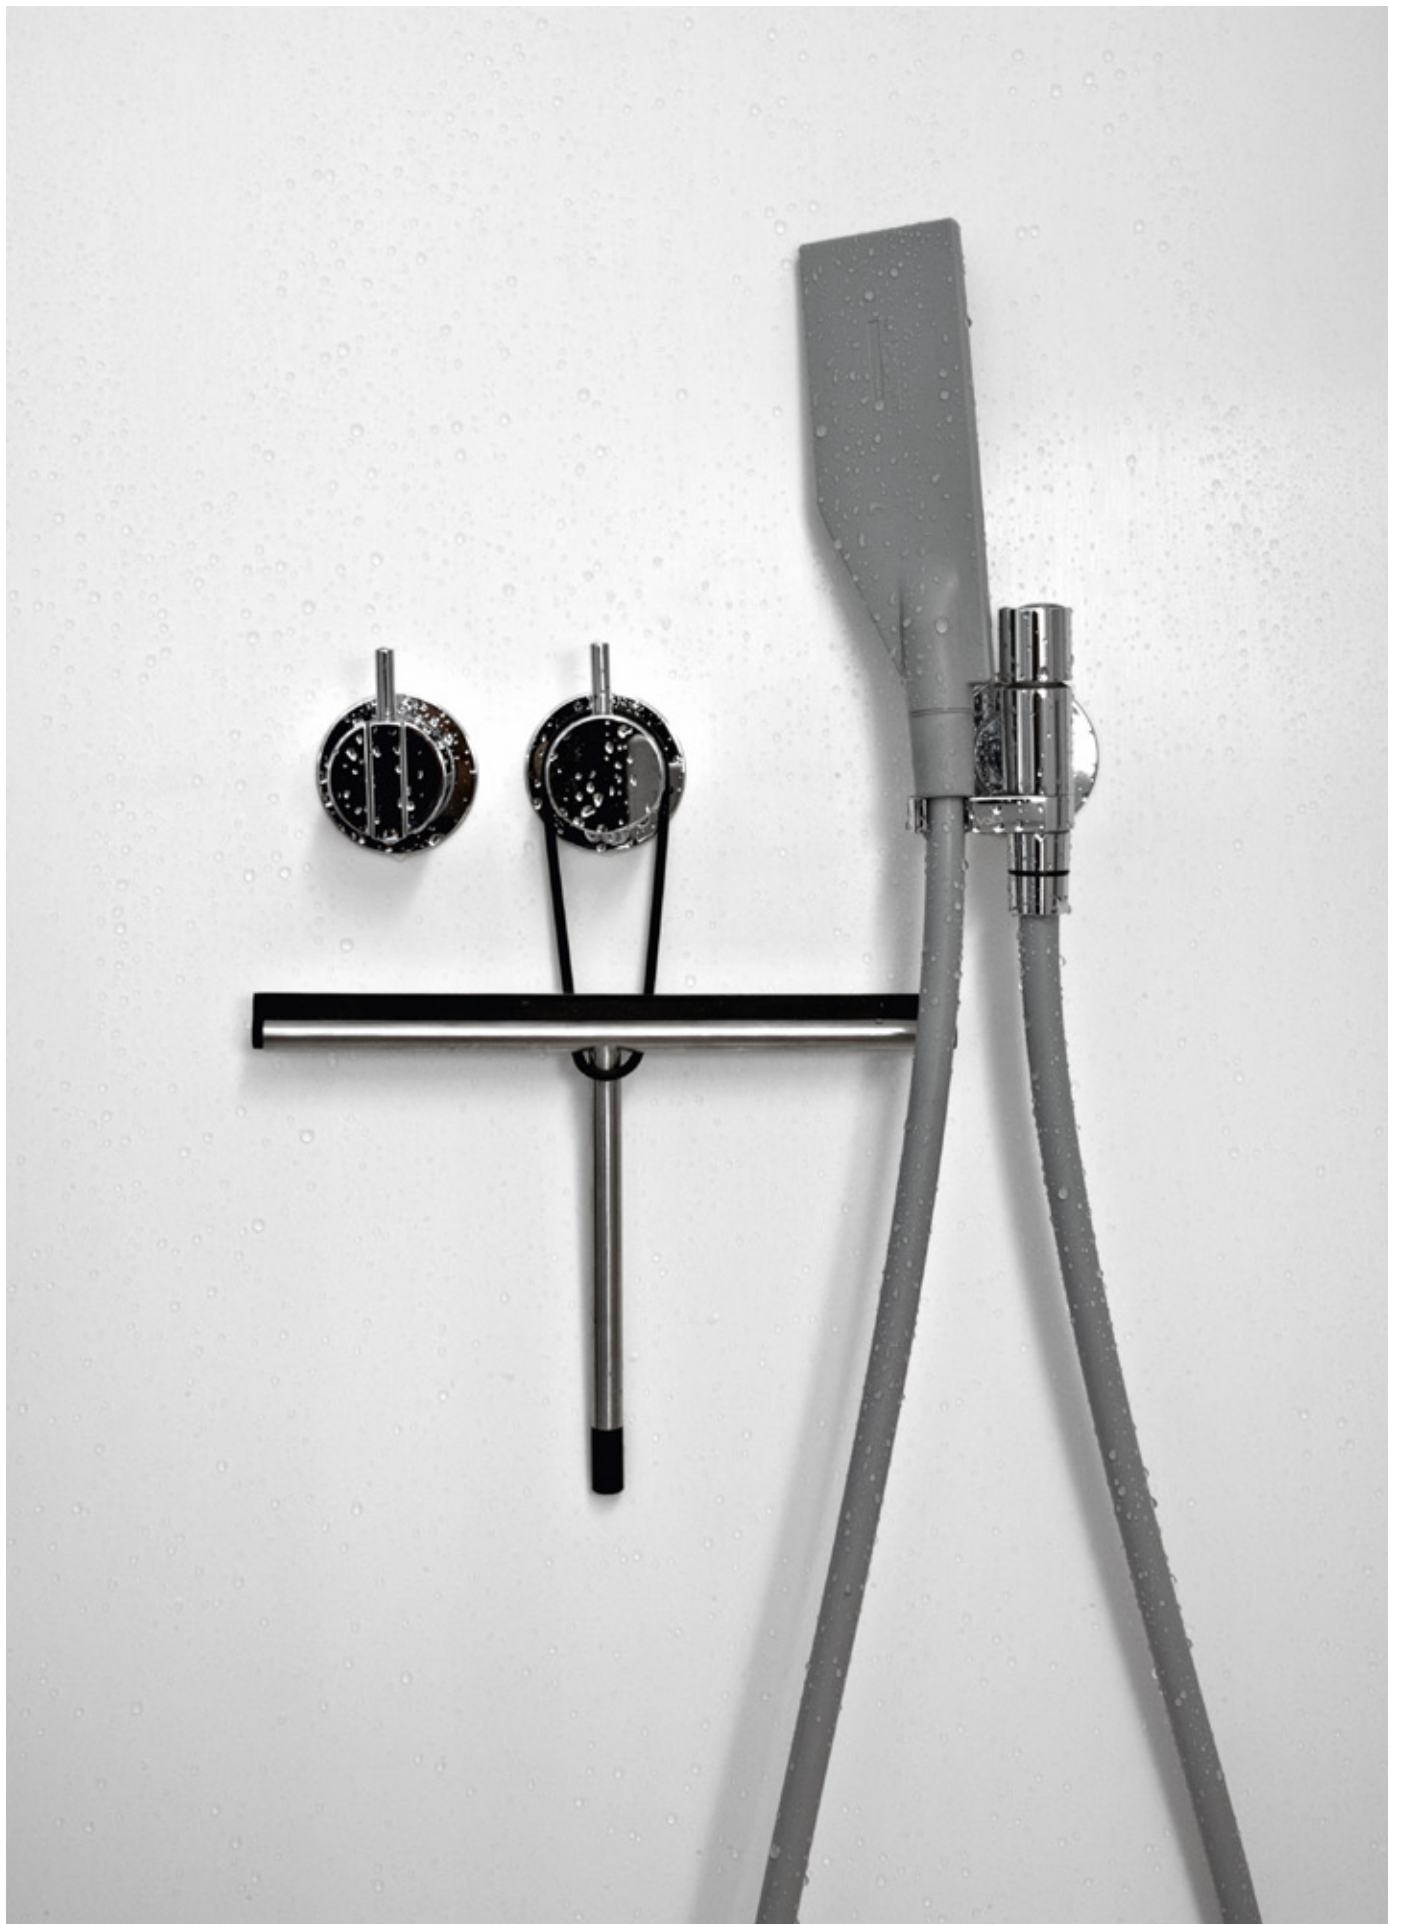

The products are made from stainless steel 304 and designed by Bønnelycke mdd, who, with a refined sense of simplicity, technical details and stylish fit, has managed to combine aesthetics and function in one and create a range of quality products that will adorn any home.

CARE Grab Rail, NOVA2 Toilet Roll & Brush Holder

NOVA2 CARE COLLECTION

## METHOD OF TESTING

To ensure that the CARE Collection is capable of withstanding heavy loads and conditions of every day use, the products have been tested in accordance to the requirements of the European standard for technical aids for disabled, BS/EN 12182:2012. We recommend all care products are installed on a solid wall.

Reinforcement should always be used if the wall is not stable. All tests are carried out on products mounted on a solid, concrete wall, thus we cannot guarantee the same performance and durability if this is not observed.

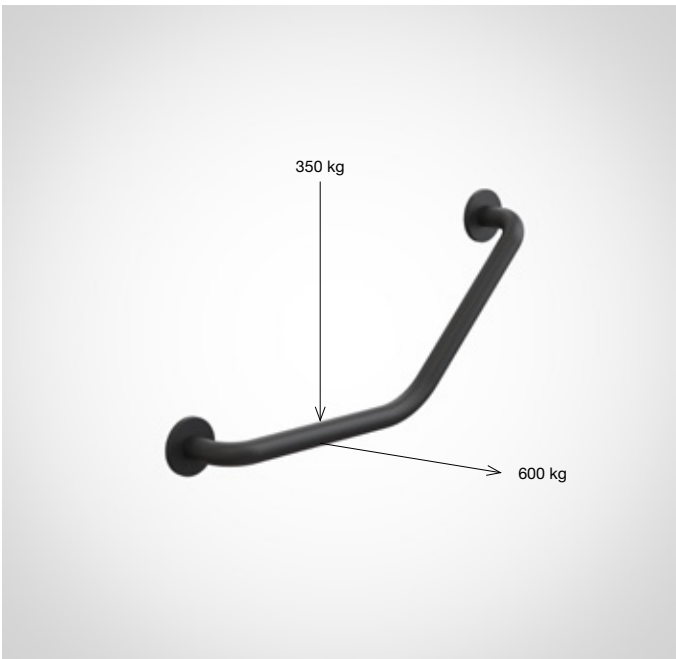

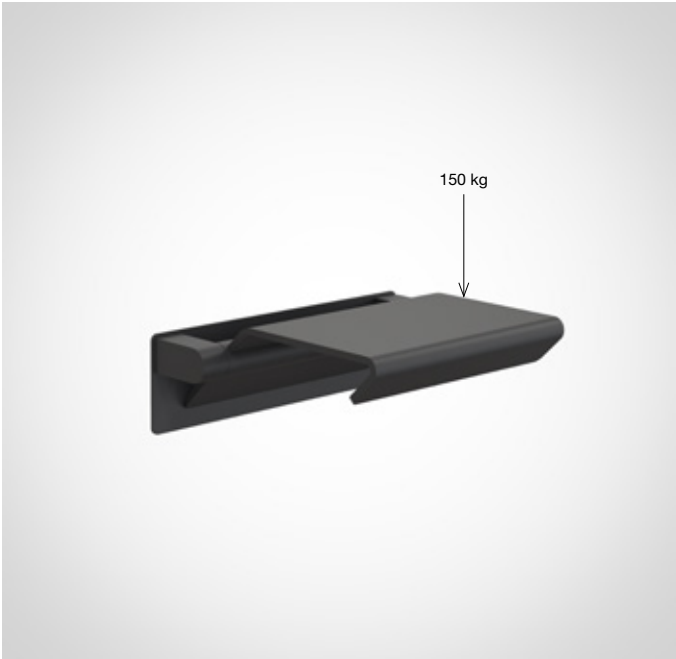

For safety reasons, we recommend to check all bolt connections to ensure that no parts are loose and that all attachment to the wall are intact.

### SEAT AND ARM SUPPORT

Implementing a safety factor of 1.5 the sample was subjected to a static proof load test with 150 kg, followed by a static overload test with 225 kg. The sample withstood the static proof load and the static overload test without fracture or collapse.

### GRAB RAILS

Implementing a safety factor of 1.5 the sample was subjected to a static load; vertical load 3.43 kN (350 kg) followed by a horizontal load of 5.89 kN (600 kg). The sample withstood both the vertical and horizontal load without fracture or collapse.
